Experience

YMGrad   **New Delhi, India**
Study Abroad Consultancy
Senior Software Developer & Team Lead   **March 2023– Present**
- Managed a high-performing team of 12 developers, primarily overseeing web and mobile application development.
- Demonstrated capable mentorship by onboarding 6 intern developers onto the full-time roster.
- Implemented end-to-end upgradation of a versatile, in-app chat feature for web and mobile applications that 80% of YMGrad users use.
- Improved the company's mobile application, which garnered over 10,500 downloads and a 4.4 rating based on nearly 250 reviews.

Software Developer   **March 2021 – March 2023**
- Executed testing and debugging of YMGrad Mobile App, a React-Native application.
- Integrated 2 web and mobile-based payment gateways by formulating failproof logic during backend SDK deployment.
- Implemented efficient Push Notification and Analytics systems using Firebase and Flurry, enhancing user engagement and data analysis.
- Designed an admin panel using Python that included preinstalled email templates, enabling effortless mass email capabilities akin to MailerLite.

Software Development Intern   **December 2020 – March 2021**
- Fabricated a Django-based API that allowed feature upgradation without needing corresponding application updates.
- Developed scalable, reusable components through React JS and React Native.
